VIDREPUR

Elegance and versatility come together in Vidrepur’s new glass mosaic, designed to transform any space into a statement of style. With its innovative 25x50 mm format, this glass mosaic is ideal for those seeking a modern, refined aesthetic. The brick pattern installation adds dynamism and depth, creating a sense of continuity and visual flow.

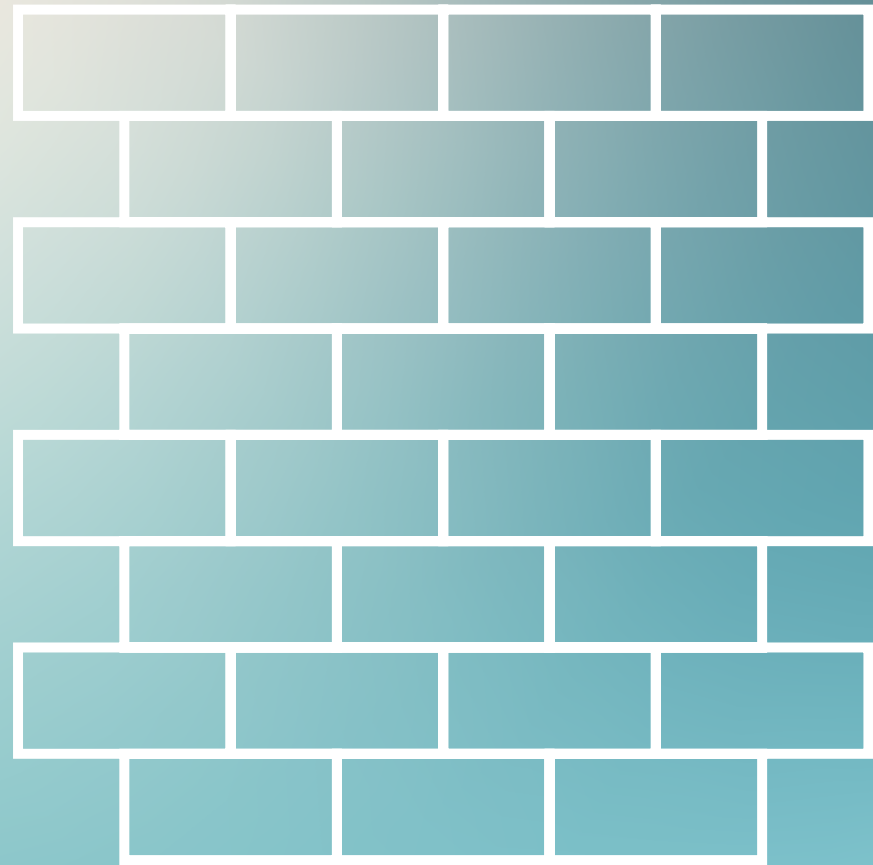

Perfect for kitchens, bathrooms, interior decorative spaces, and especially for swimming pools, where Vidrepur’s brilliance and durability provide an impeccable finish that enhances with light and water. This mosaic is the ideal choice for both aquatic projects and decorative environments, offering beauty and lasting quality in every piece.

La elegancia y versatilidad se combinan con el nuevo formato de Vidrepur, diseñado para transformar cualquier espacio en una declaración de estilo. Con su innovador formato de 25x50 mm, este mosaico es ideal para quienes buscan una estética moderna y refinada. La colocación en patrón brick aporta dinamismo y profundidad, creando una sensación de continuidad y fluidez visual.

Perfecto para cocinas, baños, espacios decorativos de interior y, especialmente, para piscinas, donde el brillo y resistencia de Vidrepur logran un acabado impecable que realza con la luz y el agua. Este mosaico es la elección ideal tanto para proyectos acuáticos como para cualquier ambiente decorativo, ofreciendo belleza y durabilidad en cada pieza.

VIDEPUR Y EL CERTIFICADO LEED

El certificado leed tiene como objetivo la sensibilización del mundo de la construcción y de la arquitectura para desarrollar proyectos de forma ecosostenible, mediante un sistema de certificación por puntos aplicado a los edificios construidos.

La asignación de los puntos se basa en el cálculo de créditos asignados para cada uno de los requisitos que caracterizan la sostenibilidad del edificio. De la suma de los créditos deriva el grado de certificación. Nuestros productos contribuyen en la puntuación dentro del apartado mr4

Los parámetros para la asignación de los créditos son definidos por un panel de expertos, que valora la totalidad del proyecto, tanto el diseño del proyecto, como los materiales utilizados en una valoración ecológica de los edificios, incluyendo el rendimiento ecológico de un edificio.

PROPIEDADES DEL MOSAICO VÍTREO

El producto se presenta en placas de 315x315 mm (aprox), con piezas pegadas sobre papel engomado, sobre fibra de vidrio y poliéster o con puntos. Por su inalterabilidad, fácil limpieza y colocación, son el revestimiento decorativo ideal para revestir piscinas, fachadas, columnas, interiores, cuartos de baño, etc. Con la utilización del vidrio y el color se consiguen soluciones más decorativas y sugestivas.

VIDREPUR AND LEED CERTIFICATION

The LEED certification aims to raise awareness in the construction and architecture industry to develop projects in an environmentally sustainable way, through a point-based certification system applied to constructed buildings. The allocation of points is based on the calculation of credits assigned to each of the requirements that characterize the building's sustainability. The certification level is derived from the sum of these credits. Our products contribute to the score in the mr4 section.

The parameters for credit assignment are defined by a panel of experts who assess the entire project, including both the project's design and the materials used in an ecological assessment of the buildings, considering the ecological performance of a building.

Vidrepur holds certificates for the high quality of its products wich have been submitted to strict quality controls according to une standards.

PROPERTIES OF GLASS MOSAIC

The product comes in sheets of approximately 315x315 mm, with pieces attached to gummed paper, fiberglass, and polyester or with dots. Due to their unalterability, easy cleaning, and application, they are the ideal decorative covering for swimming pools, facades, columns, interiors, bathrooms, etc. The use of glass and color achieves more decorative and suggestive solutions.
